

## PIXLIP GO ILLUMINATED DISPLAYS

The Pixlip Go frames are made from high quality, lightweight plastic and are a modular intelligent plug-in system that requires neither tools or experience to assemble. The components are simply pushed into each other for a perfect fit. A variety of frame formats are available, which can be combined or linked with each other with ease and they are extremely stable. Prints can be installed and swapped out or replaced with ease.

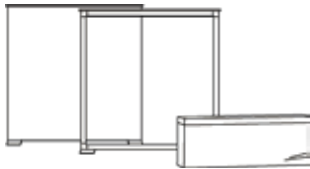

The units are illuminated using powerful protected LED modules which are simply pushed into place. Handy to transport, the Pixlip Go units are quick and easy to set up and are ideal for use in airports, exhibitions, retail outlets and much more.

## GO OUTDOOR

The GO OUTDOOR products have been specially developed and optimised for outdoor use. Equipped with waterproof LED modules and weighted with practical sandbags, they are particularly suitable as freestanding displays, but can also be combined to form entire light walls.
